## Technology Overview

The EnviroKlenz® Technology is a safe and effective technology that utilizes safe earth minerals to capture and destroy toxic and noxious gasses, particulates, allergens, bacteria, viruses, and other allergy triggers.

The patented EnviroKlenz® earth mineral technology was developed over the course of two decades by research scientists and originally designed for and still used today by the US military to destroy chemical warfare agents and toxic industrial chemicals.

The EnviroKlenz Air System Plus works against a broad array of contaminants:

- VOCs (Volatile organic compounds) including formaldehyde, acetone, toluene, etc.
- Allergens
- Viruses
- Bacteria
- Odors
- Smoke
